

CARL LOUIE A. QUILLO

ASPIRING WEB DEVELOPER & IT PROFESSIONAL

Iloilo City, Philippines | louiequillo@gmail.com | +639054908049

github.com/ciel3000 | www.linkedin.com/in/carllouiequillo3000

PROFESSIONAL SUMMARY

Information Technology graduate with practical experience in full-stack web development, software engineering fundamentals, and IoT systems development. Proficient in React, TypeScript, Node.js, Express, MongoDB, and Git-based version control, with experience building responsive web applications, integrating RESTful APIs, and collaborating in Agile development environments. Developed an IoT-enabled solar monitoring and control platform using ESP32, showcasing the ability to integrate hardware and software solutions for real-time monitoring. Analytical, adaptable, and committed to building reliable software while continuously expanding technical expertise in software development, automation, and IT.

TECHNICAL SKILLS

Programming:	Python, HTML, CSS, JavaScript, React, TypeScript, Java, C/C++, and PHP
Frameworks & Libraries:	React, Node.js, Tailwind CSS, Material UI (MUI)
Databases:	MySQL, MongoDB, and PostgreSQL
Tools & Platforms:	Git, GitLab, GitHub, VS Code, Cisco Packet Tracer, VirtualBox, MS Office
Hardware:	PC assembly, ESP32/Arduino microcontrollers, LAN/WiFi configuration
Concepts:	REST APIs, Agile/Kanban, SDLC, OOP, VLAN routing, responsive design, version control

ON-THE-JOB TRAINING EXPERIENCE

IT Intern / Web Development Intern February 2026 – May 2026

- Kingsland Technology Philippines | Iloilo City, Philippines | 500 Hours
- Contributed to the development and maintenance of an internal employee management system using React, TypeScript, **Node.js, and MongoDB.**
- Developed and enhanced UI components using React, Tailwind CSS, and Material UI (MUIX), improving usability and application functionality.
- Implemented a calendar enhancement feature displaying holidays across multiple countries, extending system utility for international teams.
- Identified, troubleshooted, and resolved application bugs, ensuring system reliability and improved user experience across the platform.
- Integrated and consumed REST APIs to support application features and data management requirements.
- Participated in Agile/Kanban development workflows, utilizing sprint boards for task management and daily stand-up meetings.
- Utilized GitLab for version control, branching, merge requests, and collaborative software development.
- Successfully completed and merged 15+ assigned development tasks into the project's development environment.
- Followed SDLC practices including planning, development, testing, documentation, and feature deployment.

CAPSTONE PROJECT

SolarCharge: Solar Monitoring and Remote Power Management System

- Engineered an IoT solar monitoring system using ESP32 microcontroller with real-time data polling across 4 monitored power nodes at sub-second refresh intervals.
- Built a full-stack React + Node.js web dashboard enabling remote monitoring of live solar data, power consumption metrics, and system health from any device.

WORK EXPERIENCE

Retail Clerk – Family-Owned Store; La Paz Public Market, Iloilo City

2012-2022

- Processed 50+ daily sales transactions
- Maintained inventory records, reducing stock discrepancies through consistent digital record-keeping
- Handled customer inquiries and coordinated with suppliers for restocking and operations management

EDUCATION

Bachelor of Science in Information Technology

2022-2026

Iloilo Science and Technology University, Iloilo City

- Relevant Coursework: Data Structures & Algorithms, Web Development, Computer Networks, Database Management Systems, System Administration, Software Engineering
